^a The change is calculated only with figures collected from establishments which were surveyed in both years.

^{*} Data calculated on a fiscal year basis

^{*} As the BOJ changed "money supply" to "money stock" starting with data for May, we replaced "M2+CDs" with a new "M3," which covers all deposits and savings at all private banks. M3 is said to be a more comprehensive indicator than M2+CDs, which excludes some financial institutions such as credit associations.
